MR. FILLMORE AT THE FRENCH OPERA.

There was a fine house at the Theatre d'Orleans last night, when ex-President Fillmore, and ex-Secretaries Kennedy and Conrad were present. They were received, on entering the house, with great and continuous cheering, and on leaving the theatre they were greeted with great and continuous cheering, and on leaving the theatre they were greeted with similar demonstrations. They remained to the close of the opera, which was Halevy's "Reine de Chypre," in which Borghese, Bordas, Lacroix and Bétout were all in admirable voice, and sang and acted their very best. The city's guests received marked attention from several fashionable parties with whom they mingled in conversation, and were seemingly delighted with the society they met there, and the charming opera that was performed for their entertainment.

Board of Aldermen.

[Our Special Reporter.]

A PROPOSED ADDITIONAL CRIMINAL COURT.

On the communication from the Board of Councilmen in favor of applying to the Legislature to establish an additional Criminal Court in this city, being read.

Alderman Haward said that an additional Criminal Court was much needed, and he moved the concurrence of this Board with that of the Councilmen. He had consulted with the District Attorney on this matter, and that gentleman was of opinion that another Criminal Court was actually necessary to dispose of the increasing number of offendent councilments.

any necessary to dispose of the increasing number of offender.

Alderman Morr hoped it would be referred to a committee of this Board. He, too, had had a conversation with the District Attorney and the Recorder, and these gentlemen differed in opinion as to the necessity for another Court. Alderman Chauncry said he had also had a conversation with the Recorder and District Attorney, and he would move that the subject be referred to a general committee. This matter had been before the Board on a former occasion, and the District Attorney had been requested to furnish his opinion, but he had failed to do so, although he had not failed to give his opinion to individual members of this Board.

the District Attorney had been requested to furnish his opinion, but he had failed to do so, aithough he had not failed to give his opinion to individual members of this Board.

Alderman Lord said, that as a member of the Law Committee of the Board of Supervisors, he had asked the District Attorney to explain his views before that Committee, but circumstances had provented him from doing so. He (Alderman Lord) also had had a conversation with the Recorder, whose opinion is entitled to respect, and he says the additional court is not required. The Recorder's position entitles his opinion to respect and deference. The District Attorney, on the other hand, says it is impossible to transact all the buniness with the present tribunals. This Board is not in a position, therefore, to decide, and it was necessary, in order to come to a proper conclusion on the matter, that it should be referred. He moved its reference to the Law Committee.

Alderman DRAN said, as the matter had been before the Connellmen and reported on favorably by a committee of that Burn he approsed there was as much law there and he voted for its concurrence was here among twenty.

Alderman Exp. having left the chair, supported the motion for concurrence; the great wrong is, that panishment does not immediately follow the perpetration of crime. Justice, economy, and all things combined, prove that another criminal court is necessary for the administration of the laws. Mr. Ely then made some remarks respecting the Recorder not endeath of the concurrence.

Alderman Morr. riving—I do not like things to be stated here that have not true. Some slight common ton.

Alderman Morr.—I don't believe all you say.

Alderman Morr.—I take no apploy from the Alderman of the Twenty-first.

Alderman Morr.—I take no apploy from the Alderman of the Twenty-first.

Alderman Morr.—I take no apploy from the Alderman of the Twenty-first.

Alderman Morr.—On 'the understand that. (Laughter.) Alderman Hernney said that he believed theres were plenty of criminal courts is the

teenth (the Chairman) had known that the criminal offences alluded to in the report could not come before the additional criminal court, but should be brought to the Oyer and Terminer—

The Prissipers, who had again taken the chair, said the Alderman of the Seventeenth well knew that; but he also knew that the business of the other criminal courts is clogged for want of another tribunal.

After some few further remarks the report was referred to the Law Committee.

THE CAREMAGE HIRL OF THE ALDERNESS.

A motion to concern with the Board of Conneilmen in a resolution to request the Comptroller to pay the carriage hire of members of both Boards when on duty clicited some remarks.

Alderman Mott said that it was better for each member to pay six cents in an omnibus or a railway car out of his own pocked than to charge the city & for a carriage. He alluded to abuses that had prevailed in former Boards, when members used to take their families out in carriages and charge the expense to the city.

Alderman Chaurs of the concerned when the motion for concurrence.

Alderman Chaurs of opposed it, and stated that he had been in Albany scently on public business, and he did not derive to make any charge for his expense.

A MENNER—You age rich. You can afford it. (Laughter.)

Alderman Howard—I would sak the gentleman if he has a free ticked on the railroad? (Laughter.)

Alderman Mover moved to amend, by inserting that the charge made by each member be verified by him on oath.

This was opposed by several members, as implying a wast of confidence in the bonor of the members of the Board. It was then moved as a further amountment, that the churse for carriage hire should not exceed lifty dollars a year for each member.

This was lest by a vote of eleven to ten, and the concurrence with the Councilmen was then put and carried by a similar vote.

Of Special Committee—To revise vules of order, suggesting certain amendments to the rules. Special order for ing certain amendments to the rules. Special order for Monday. The Board then adjourned to Friday afternoon, at five o'clock. From the minutes. C. T. McCLENACHAN, Clerk.

Mr. Mather moved that it be referred back, and that the Board report progress. His reason for making the motion was became be believed the contract work, as the Comptroller also did, was not performed faithfully. The report of the committee, in his opinion, did not show that the work had been faithfully performed. If they had, he would be willing to give Mr. Reynolds his subjuing ticket. The committee wanted, not only the Compteller to stop all proceedings paid win. B. His direction relative to the contract of his warrant in his favor or, all amounts the contract of his warrant in his favor or, all amounts the beam became due.

Mr. Hodgenssos said that if the Comptroller thought Mr. Reynolds had been making too much money out of his contracts that was no reason why the Common Council should refuse to pay the sums due to him by his contract. If Mr. Reynolds was making a losing job of it, the Comptroller would hold his securities fiable. Therefore, in view of shose facts, he hoped the report would be acted favorably on.

Mr. Connoven hoped the resolution attached to the report of the committee would be acted favorably on.

Mr. Kennerov hoped the vote would be taken on the adoption of the report.

Mr. MATHER hoped not. He wanted some time to further inguire into the matter.

Mr. Kennerov had heard a great deal of talk about this contract work of Wm. B. Reynolds: he had been led to believe that some astounding revelations would be made by close the contract work of Wm. B. CHARLESTOWN NAVY YARD.—Business is extremely dull at the Charlestown Navy Yard. We are informed that the smallest possible number of men is now employed there—a smaller number, in fact, than at any time for a dozen years. The sudden suspension of work on the sloop-of war John Adams, by orders from Washington, has caused the discharge of the 300 workmen who were lately hired in. Not a little grumbling is heard among the hoat of mechanics who voted for our New England President in hopes to bring on "good times" at the principal New England Navy Yard.—Beston Transcript.
